# IAN FLEMING

FULL STACK WEB DEVELOPER

## PROFESSIONAL EXPERIENCE

### Formalprozessabteilung Sachbearbeiter / Legal Assistant

*Grünecker Patent- und Rechtsanwälte, Munich: May 2019-present*

- Controlling and coordinating all formal processes relating to industrial designs/trademarks. Reporting on registration, enacting payments, dealing with multiple deadlines, navigating a huge workload and ensuring all reports are forwarded within a month of receipt.
- Enhanced efficiency by overhauling, centralising and fully-digitising the fee payment/deferment schedule. This made it legible and understandable, aiding in better prioritisation of work and resulting in 100% of all deadlines met, even in the case of my absence.

### Bar manager

*The Keg Bar, Munich: March 2015 - March 2017*

- Hired, trained and motivated staff to cultivate a sense of team and a customer-focused approach, delegated work, accurately planned drink/food orders depending on demand/upcoming events, showcased my adaptability by quickly earning a management role in an unfamiliar industry.
- Authored an extensive electronic staff handbook detailing every aspect of the job (from how to pour every drink/cocktail on the menu to how to deal with electrical faults in the building). This allowed for staff to focus on providing a better customer experience, safe in the knowledge that most questions they need an answer for would be explained clearly and succinctly.

### Book department worker, duty/weekend manager

*The Book Centre, Waterford, Ireland: August 2008 - June 2014*

- Analysed inventory and planned accordingly, ordering books for ca. 8 different sections to ensure we always had exactly what the customer wanted before they even knew they wanted it.
- Aggregated different rare title websites for customers, so that no matter how obscure or long out of print a title is, we could generally source it at a reasonable price.

## EDUCATION

### Career Foundry

*Full-Stack Development Certificate, January 2020 - November 2020*

- Attained a fluency in Javascript, and subsequently React, React Native and Node.js.
- Built a personal portfolio site from scratch to showcase my work, including: a fully-functional React Native chat app for Android and IOS, several apps that employ external APIs (including a Meetup app and a Pokedex clone) and notably an entire full-stack movie application (My 1980s Movies API) with login and user account functionality, creating using the MERN stack, the MVC design pattern and REST.

### University College Limerick, Ireland

*MA in Music Technology, 2012-2013*

- Graduated with a 1.1
- Wrote a peer-reviewed scientific paper on a piece of music I composed and released, based on the voice of author Harlan Ellison ('I Have No Mouth (pts. 1-6) - Introducing Postdigital Spectralism' - Leonardo Music Journal LMJ24 - p.45-48, Dec 2014 - [www.mitpressjournals.org/doi/abs/10.1162/LMJ\\_a\\_00201](http://www.mitpressjournals.org/doi/abs/10.1162/LMJ_a_00201))

### University College Cork, Ireland

*BA in English and Sociology, 2000-2003*
